Dundee
Scotland.

24th May 1969.

Dear Mr. Weisberg,

Thank you very much for your letter which I received on 23rd May. The books I have are "Whitewash", the Dell edition with the Mayflower cover, and "Whitewash II", published by Dell. The "Whitewash II" was bought in U.S. by a girl friend who visited California.

I would like to purchase copies of your books "Photographic Whitewash" and "Oswald in New Orleans", and any other book you publish. I am not enclosing the money because I will probably have a little difficulty and there will most likely be a slight delay in obtaining the dollars. I will send the money as soon as I can obtain it; I am sorry the letter is so brief, I have important exams in ten days time so I am busy with Dentistry at the moment. After the exams I will write a longer letter and forward the money for the two books. I look forward very much to reading the books, especially "Photographic Whitewash". I am trying to obtain as much material as I can on the assassination, I have ordered several books but so far they

have not arrived (including the 26 volumes). I was informed that Sylvia Meagher's Index to the 26 volumes was out of print but a distributing firm in London have ordered the book for me and I am waiting for the book to arrive in the near future. If I do not obtain the 26 volumes within the next month or so I will inform you, similarly with the index, which I feel will be invaluable.

I will be able to devote more time to the books after my exams; and I am anxious to read the 26 volumes. As from July 1st I will have a new address;—

195, Clepington Road, Dundee.

I am at the moment trying to obtain past issues of "Life" magazine in order to study photos of the Zapruder film frames. I am also trying to obtain past issues of other magazines containing material on the assassination, but I do not think I have much hope of getting them since most of them are American. I read in, I think, "Esquire" that Joachim Joesten [redacted] had compiled all his material and was selling it, by subscription, at $200. Is this true, and

if so, is the material useful – what is your opinion on it? I have really very little material on the subject – about 15 books and a few magazines.

I recently wrote to a top forensic pathologist in America asking him numerous questions on the subject – I do not know if I will obtain a reply or not. I have the addresses of five other top forensic pathologists in the U.S., so I may write to them as well. I would like to have a talk with a forensic pathologist rather than just write but that is out of the question with the U.S. pathologists – I am not likely to visit the U.S. in the forseeable future. The head of the forensic department at our University was formerly assistant Home Office Pathologist, I believe, and I will probably try and contact him with a view to discussing the subject if he is willing.

Anyway, as I said, I am in the throws of working for exams so I will have to keep the letter brief. I look forward to reading your books; I will write again in the near future. I look forward to hearing from you.

Yours faithfully
C. Longbottom
